UNPARALLELED VALUE & QUALITY FOR DISCERNING BUILDERS

WHAT SETS US APART

- We offer a wide range of high-quality, cost-sensitive cabinetry to fit projects ranging from a single family development to large residential apartment buildings, including an extensive ADA offering.
- Capacity and expertise to supply cabinets for projects ranging from a two-family home to a large residential apartment building.
- A comprehensive set of shop drawings generated from the architectural plans provided by our design team.
- As a U.S. manufacturer we are able to react to changing field conditions quickly.

SERVING YOUR PROJECT NEEDS

- Our cabinets meet CARB II compliance and carry the KCMA Certification, with core materials sourced from an ECC Certified Manufacturer.
- Benefit from industry-leading short lead times, ensuring swift delivery without compromising quality.
- Enjoy the flexibility of staggered deliveries for added convenience.
- Each cabinet is thoughtfully labeled with size and unit number, streamlining organization during installation.

COMPREHENSIVE TEAM APPROACH

The Innovation Cabinetry multi-family team adopts a holistic approach to each project, leveraging a collaborative team comprising project managers, designers, and estimators. Each team member brings their specialized expertise to contribute and support every stage of the process. Whether it's the initial estimating phase or the creation of shop drawings, the Innovation Cabinetry multi-family team is dedicated to ensuring successful outcomes at every step.

EDGE CABINETRY THE DETAILS MAKE US BETTER

3/4" full overlay door and drawer fronts available in a Shaker and Slab door profile.

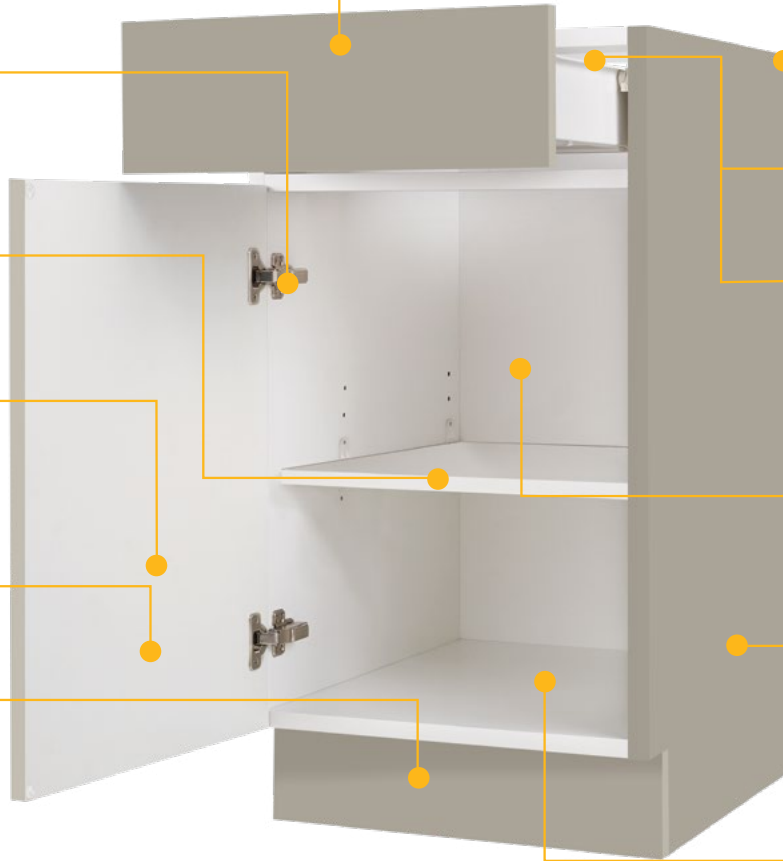

Concealed 6-way adjustable soft-close door hinges allow doors to close silently and smoothly.

3/4" white TFL furniture board shelf. Shelves are adjustable on wall and base cabinets.

Non-toxic, scratch-resistant thermally-fused laminate (TFL) surface is safe, durable and easy to clean.

Easy to replace doors and drawers for speedy, hassle-free refacing.

Matching toe-kick and side panels sold separately.

Constructed with a patented hidden joinery system for a beautiful exterior finish with no visible fasteners or screws.

Slim epoxy coated white metal drawer with a 1/2" eco-friendly furniture board bottom and back panel.

Epoxy-coated side-mounted drawer glides with soft-close mechanism and 3/4" extension. Glides support weights up to 100 lbs.

Cabinet box interior and exterior sides have a thermally-fused laminate (TFL) white finish.

Color-matched integrated décor end panels available, on Level 1 cabinetry, eliminating the need for separate finished panels (as shown).

Full access frameless cabinets provide 18% more usable storage space than framed cabinets.

Core materials used in EDGE are sourced from ECC Certified Manufacturers.

PREMIUM QUALITY INVISA-EDGE® BANDING

We use only Invisa-edge® banding, a premium feature associated with quality and craftsmanship.

INVISA-EDGE® OFFERS:

■ Invisible Joints

Invisa-edge® banding creates nearly invisible joints between the edge band and the cabinet surface. This results in a smooth, cohesive appearance without visible seams.

■ Outstanding Durability

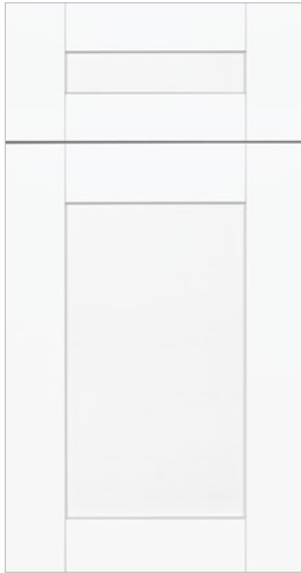

Invisa-edge® banding enhances the durability of the cabinet. The seamless integration of the Invisa-edge® band helps prevent moisture, dirt, and other contaminants from infiltrating the joints, contributing to the longevity of the cabinet.

■ Environmentally Friendliness

Our Invisa-edge® banding materials are environmentally friendly, contributing to sustainable and eco-conscious design practices.
